

Fence Stain Guidelines

The ACC would like to make homeowners aware that two colors of fence staining have been approved. Both are in the Behr brand: Behr Premium Transparent Deck, Fence, and Siding Weatherproofing Wood Finish in Natural Clear No. 500 and Behr Transparent Waterproofing Wood Finish in Natural Clear No. 400. Neither type is approved in the brown, cedar, and redwood tones/colors. These approved stains can be found at Home Depot. The ACC is working on finding similar color options in brands at other local hardware and painting stores.
